

IN THE SPECIFICATION:

Please amend the specification as follows:

Paragraph beginning on page 5, at line 14, has been amended as follows:

Please refer to FIGS. 2 to 6. A user may press down the press button 36 to start the test of this invention. ~~Do~~ The user should not touch ~~the skin to be tested~~ with the apparatus right ~~away, but~~ away. First, allow the power of the power supply be converted into a micro alternate current to pass through the electrodes 20 and the correction resistor 31 first. The display device 36 shows the measured resistance, so that the user can make any necessary correction for the difference caused by variable factors such as voltage and ambient temperature.
